## Veterans Urged To Be Wary of New Type Shark

'Policy Buyers' Busy in Effort to Defraud Former Soldiers

SAN FRANCISCO.—Hitting at the "professional policy buyers" who are defrauding World War veterans of California out of their adjusted compensation certificates, State Adjutant James K. Fisk of the American Legion has issued a warning to all veterans of the state to beware of frauds in connection with the securing of loans on their war bonuses.

The frauds upon World War veterans have been most noticeable in Southern California, but Adjutant Fisk and other American Legion officials fear that the same practices will spread over the state. "Thousands of Los Angeles veterans have been 'chinked,'" according to word Fisk has received from Assistant United States Attorney Peterson, in charge of a special probe into the insurance situation in the south.

"We have instances where veterans parted with their certificates for less than 50 percent of their value," State Adjutant Fisk declares. "All such assignments are illegal and we will wage a state-wide campaign to prevent loan sharks from preying upon the veterans."

Criminal action is contemplated against a large number of agencies which have been guilty of defrauding war veterans, according to Fisk.

## Highway News

Notes on California Roads Furnished by National Auto Club

The Arrowhead Trail between Barstow, Yermo, Baker and Las Vegas, Nev., is repaired and in very good condition again. The Daggett bridge is still out and deep water is running in the Mojave River. Motorists must use Barstow bridge to reach north road into Yermo.

The Redwood Highway is now open as far north as Eureka, for light traffic. The Pacific Highway is now open, but it is very muddy and chains are necessary.

The bridge on the main road to Palm Springs is out at White-water Station, and all traffic is now taking detour via Garnet Station.

The Idyllwild grade is badly washed out below Oak Cliff, where the summer controls were located. The Soboba bridges are out, as well as the bridge between San Jacinto and Gilman's Hot Springs. The bridges between Ethanac and Ferris motorists should take the road from Hemet to Temecula via Winchester is now open, with a few washes in existence. The best route to Hemet at the present time is via the Nuevo road. About two miles before reaching Ferris motorists should take the Nuevo road and turn south on dirt road just before arriving at Nuevo. This will bring one direct into Ethanac. No heavy trucks are allowed on this road.

Roads are in very good condition throughout Imperial Valley. They were not badly damaged by recent storms. The pavement that was washed out at the foot of the mountains between El Centro and Mountain Springs is being rapidly replaced and traffic is going through with very little delay. The highway near Buckman Springs is quite badly washed.

The Corona-to-Riverside road is now repaired and open. No heavy trucking is allowed over this route. The Temescal Wash bridge just east of Corona was badly damaged during recent storms, but is open to all except heavy trucking. The Prado and Auburndale bridges over the Santa Ana River, as well as the bridge just north of Norco, were washed out during the recent storms in this section. On the Corona-Elsinore road very bad washes will be encountered just south of Glen Ivy, and the advisable route to Elsinore at this time is via Riverside. Traffic is still detouring via the southern side of Lake Elsinore.

The roads from Mojave to Bishop through Owens Valley are in excellent condition at the present time. The road from Lone Pine, via Keeler, Darwin, and the new Elchbaum toll road, to Death Valley is in very good condition and carrying a great deal of traffic.

The route from Los Angeles to Ventura via Saugus and Santa Paula is now open. The Conejo grade route is open and, in very good condition. Between Ventura and Santa Barbara slow time is still being made, due to construction work which is still in progress. The first ten miles is particularly rough. The route from Ventura to Ojai on Ventura avenue is open and in good condition.

Roads in San Gabriel Canyon are not advisable at the present time. Many landslides are in evidence and considerable water will be found in places where the bottom of the river formed the roadbed.
